SEARCH

### Tox & Drug Product Lookup

Search for drug products (by brand name, generic, or branded generic), commercial/household products and chemicals (by product name or synonym), and other slang terms. Search by a specific active ingredient in the substance, by a specific code (such as NDC, CAS, or EPA code), or a valid 7-digit Product ID.

I want to search for...

- Product or substance names
- Globally distributed drug products in Martindale

I want to search by and receive suggestions for...

- Product or substance name
- Codes
- Product ID
- Active ingredients

Enter search term: hypochl

Submit

- Hypochlorite
- Hypochlorite Chlorine Disinfectant, Yale
- Hypochlorite D Code 2790
- Hypochlorite De Calcium
- HYPOCHLORITE DE CALCIUM (French)**
- Hypochlorite De Sodium
- Hypochlorite De Sodium 12%
- Hypochlorite De Sodium 4%
- Hypochlorite De Sodium 5.25%
- Hypochlorite De Sodium 5%
- Hypochlorite De Sodium, Javel-5
- Hypochlorite De Sodium, Javel-12

## ABOUT TRUVEN HEALTH ANALYTICS

Truven Health Analytics delivers unbiased information, analytic tools, benchmarks, and services to the healthcare industry. Hospitals, government agencies, employers, health plans, clinicians, and life sciences companies have relied on us for more than 30 years. We combine our deep clinical, financial, and healthcare management expertise with innovative technology platforms and information assets to make healthcare better by collaborating with our customers to uncover and realize opportunities for improving quality, efficiency, and outcomes. With more than 2,000 employees, we have major offices in Ann Arbor, Michigan; Chicago; and Denver. Advantage Suite, Micromedex, ActionOI, MarketScan, and 100 Top Hospitals are registered trademarks of Truven Health Analytics.

# MICROMEDEX® 2.0

## COMPLETE CLINICAL EVIDENCE SMART SEARCHING. FAST ANSWERS.

Truven Micromedex 2.0 provides a single source for drug, disease, toxicology, lab, and alternative medicine information. Now with smarter searching, answers can be found more quickly, saving clinicians time and supporting patient safety initiatives.

For more than 30 years, more than 3,500 hospitals in more than 83 countries worldwide have relied upon Micromedex for evidence-based, peer reviewed clinical decision support.

## SIMPLE SEARCHING

- Searching and navigation in multiple languages
- A single search box on every page, similar to familiar search engines
- Predictive text to help build a search
- Synonyms and alternative spellings
- Related content suggestions
- Keyword, question, or multi-term searching

## MICROMEDEX 2.0

- Saves clinicians time
- Helps reduce medication errors
- Supports patient safety initiatives
- Ensures consistent care across the hospital
- Promotes best practices by appraising and rating evidence and recommendations

## SPEEDY RESULTS

- Results ranked by relevance
- Select summary-level or in-depth results
- Single results page links to drug, disease, and toxicology information, and more

## FAST SEARCH RESULTS

A single dashboard provides quick links to drug interactions, IV compatibility, comparative efficacy, disease, and toxicology information, plus calculators and tools. Select from summary-level and in-depth content.

The screenshot shows the Micromedex 2.0 interface. At the top, there are navigation tabs for various drug-related topics like Interactions, IV Compatibility, etc. A search bar is present with the text "Enter one or more search terms". Below the search bar, there are filters for "Available Routes" and "Bevacizumab". The main content area is titled "Bevacizumab Intravenous" and includes a "360° View Dashboard" link. The "MICROMEDEX DRUG SUMMARY INFORMATION" section lists various details such as Adult Dosing, Pediatric Dosing, Pregnancy Category, and Adverse Effects. To the right, there are sections for "DRUG CONSULTS (17 results)", "COMPARATIVE EFFICACY (16 results)", and "MARTINDALE - OTHER INFO (1 result)".

## RECOMMENDATION, EVIDENCE, AND EFFICACY RATINGS

Ratings and detailed appraisal of studies on which recommendations are based to allow clinicians to make decisions with confidence.

The screenshot displays the "RECOMMENDATION, EVIDENCE AND EFFICACY RATINGS" section. It features a table titled "Table 1. Strength of Recommendation" with columns for Class, Recommendation, and Description. Below this, there are sections for "Table 2. Strength of Evidence" and "Table 3. Efficacy". The "CLINICAL APPLICATIONS" section at the bottom provides detailed information about the drug's use, including FDA Labeled Indication, Adult/ Pediatric status, Efficacy, Recommendation, and Strength of Evidence.

## DRUG INTERACTIONS

Access multiple drug interaction information on a single screen. Colour-coded results identify potential adverse reactions between drugs and food, ethanol, pregnancy, tobacco, pregnancy, lactation, and allergies.

The screenshot shows the "Drug Interaction Results" page. It includes a search bar and a "SEARCH" button. Below the search bar, there are filters for "Refine by: Drugs, Severity, Documentation, Type". A "Jump To:" section lists various categories like Drug-Drug (4), Ingested Duplication (0), Allergy (1), Food (7), Ethanol (2), Lab (6), Tobacco (1), Pregnancy (7), and Lactation (7). The main table lists "Drug-Drug Interactions (4)" with columns for Drugs, Severity, Documentation, and Summary. The first entry is "ST JOHN'S WORT [Systemic] - WARFARIN SODIUM [Systemic] [Warfarin]" with a Major severity rating. Below the table is a "Definitions" section with icons for Severity (Contraindicated, Major, Moderate, Minor, Unknown) and Documentation (Excellent, Good, Fair, Unknown).

## COMPARATIVE DRUG SUMMARIES

Select multiple drugs for comparison in an easy-to-read tabular format. Two drugs can be viewed side-by-side and switched with a single click utilising drop-down menus. Alternatively, search by Therapeutic Class.

The screenshot displays the "Drug Comparison Results" page. It features a search bar and a "SEARCH" button. Below the search bar, there are filters for "Display in Column 1" and "Display in Column 2". The main table lists "Drug Comparison Results" with columns for Drug, Mechanism of Action, and other details. The first entry is "Amoxicillin" and the second is "Azithromycin". Below the table, there are sections for "Contraindications" and "Precautions" for both drugs, with links to "View Detailed information in DRUGDEX".
